CORE COMPETENCIES

- Authority of Record Leadership & Regulatory Compliance
- Technical Project Governance & Execution Oversight
- Multidisciplinary Coordination & Stakeholder Management
- Architectural Design Management & Quality Assurance
- Regulatory Documentation & Government Liaison
- Construction Site Supervision & Technical Resolution
- Business Development in Architectural Consultancy
- Strategic Planning & Departmental Operations
- Proposal Development & Bid Strategy Formulation

CERTIFICATIONS

-  Professional Certificate in Engineering Management | The American Society for Engineering Management
-  Manager Certification – Social Accountability International (SAI) | American Quality Accreditation Institute
-  Manager Certification – Quality Management System (QMS) | American Quality Accreditation Institute
-  Manager Certification – Business Continuity Management Systems (BCMS) | American Quality Accreditation Institute
-  Manager Certification – Compliance Management System (CMS) | American Quality Accreditation Institute

Amr Gamal Elabd

Architectural Project Management | AOR & Regulatory Compliance | Engineering & Design Consultancy | Technical Leadership | Construction Supervision | Stakeholder & Authority Coordination | Business Development in Architecture | Strategic Project Delivery

PERSONAL PROFILE

- **Architectural Project Leader** with over 11 years of international experience delivering high-impact commercial and residential developments across Saudi Arabia and Egypt, with proven command over AOR leadership, regulatory liaison, and multidisciplinary coordination from concept to construction.
- Demonstrated excellence in **project governance and compliance**, spearheading end-to-end technical reviews, authority approvals, and design validation in alignment with Saudi Building Codes, resulting in seamless execution and timely project delivery.
- Adept at **driving large-scale architectural initiatives**, balancing strategic planning, stakeholder alignment, and on-ground execution, while ensuring quality standards, risk mitigation, and engineering precision across all phases.
- Expertise in **managing departmental operations, proposal development, and business growth**, combining architectural insight with commercial strategy to secure new opportunities and streamline client engagement in consultancy environments.
- Technologically proficient in **Revit, AutoCAD & digital design ecosystems**, with a strong foundation in engineering management systems, ISO frameworks & performance monitoring, positioning projects for operational excellence & regulatory success.

WORK EXPERIENCE

Technical Project Manager | Consultancy Group – KSA | (May 2024 – Present)

Key Result Areas:

- Led comprehensive technical evaluations to ensure architectural and engineering deliverables met regulatory and project-specific standards.
- Worked cross-functionally with multidisciplinary teams to provide expert input and resolve technical challenges throughout design and construction phases.
- Acted as a critical liaison between stakeholders to streamline design compliance and optimize project execution.

Senior AOR Engineer | Consultancy Group – KSA | (May 2023 – May 2024)

Key Result Areas:

- Directed Authority of Record (AOR) operations for major development projects, ensuring full alignment with Saudi Building Codes and municipal regulations.
- Oversaw coordination between internal teams, external consultants, and government entities to facilitate regulatory approvals and documentation.
- Managed quality control of submittals to safeguard project integrity & regulatory compliance.

Business Development Engineer | ACKD Consult – KSA | (May 22 – May 23)

Key Result Areas:

- Identified new business opportunities and nurtured client relationships to support the firm's growth objectives in architectural consultancy.
- Contributed to proposal creation, bid strategies, and market intelligence gathering to enhance project acquisition efforts.
- Collaborated with technical teams to tailor offerings and align proposals with client expectations and market trends.

AOR Department Head | ACKD Consult – KSA | (May 2021 – May 2022)

Key Result Areas:

- Oversaw departmental functions related to AOR submissions, regulatory interface, and municipal coordination.
- Streamlined workflows and built relationships with municipal authorities to fast-track approvals and resolve compliance issues.
- Guided a team of engineers and architects in preparing, reviewing, and submitting documentation aligned with legal codes and client requirements.

EDUCATION

- Bachelor of Architecture Engineering | Assuit University, Egypt – 2014

Senior Architect | ACKD Consult – KSA | (May 2018 – May 2021)

Key Result Areas:

- Managed architectural design development for commercial and residential projects, ensuring creative integrity and regulatory alignment.
- Led on-site inspections and provided technical oversight during construction phases to ensure adherence to design specifications.
- Supervised and mentored junior team members, enforcing quality standards and client expectations across deliverables.

Architect | Sahab for Engineering Consulting – KSA | (Feb 2018 – Apr 2018)

Key Result Areas:

- Translated conceptual ideas into detailed drawings, technical documentation, and construction-ready plans.
- Participated in cross-functional design discussions and supported submission processes for architectural approvals.
- Ensured design intent was clearly conveyed through visual presentations and working drawings.

Junior Architect | Tilad for Engineering Consulting – KSA | (Aug 16 – Feb 18)

Key Result Areas:

- Supported senior architects in preparing architectural plans, 3D visualizations, and project presentations.
- Participated in site assessments to track progress, identify deviations, and assist in resolving construction-related challenges.
- Contributed to preparing documentation for client approvals and coordination meetings.

Site Architect | Experience House Consultations Office | (May 16 – Jul 16)

Key Result Areas:

- Supervised on-site construction activities, ensuring execution aligned with approved architectural plans and quality benchmarks.
- Coordinated with contractors and engineers to address on-site issues and ensure smooth workflow.
- Maintained detailed site reports to document progress and deviations.

Site Architect | Upper Egypt Contractor Company | (Mar 2016 – May 2016)

Key Result Areas:

- Inspected construction sites for architectural accuracy and ensured adherence to technical drawings.
- Acted as a communication bridge between the design team and site personnel to maintain consistency and quality.
- Provided daily updates and flagged discrepancies for timely resolution.

Soldier (Military Service) | Egyptian Armed Forces | (Jan 2015 – Feb 2016)

Designer & Site Architect | Ramz for Engineering Consulting | (Aug 14 - Dec 14)

TECHNICAL SKILLS

- AutoCAD
- Revit
- Adobe Photoshop
- Google SketchUp
- Microsoft Office Suite (Word, Excel, PowerPoint)
