

# ARUN KUMAR S

## SITE ENGINEER

Experienced Site Engineer with a B.Tech in Civil Engineering and 10 years of hands-on expertise in managing construction sites, overseeing project execution, and ensuring adherence to quality and safety standards. Skilled in site supervision, resource management, and coordinating with multidisciplinary teams to achieve project milestones efficiently. Seeking an appropriate role to leverage technical skills and project management capabilities to contribute to high-quality, on-time project completion in a progressive construction environment.

## PROFESSIONAL EXPERIENCE

FEB 2021-SEP 2024

### Site Engineer

Mitsumi Housing Pvt Ltd, Gujarat

*Project: Life Mission Kerala Flat Project*

- Coordinated with project managers, architects, and other team members to ensure alignment on goals and progress.
- Verified that every drawing was executed and carried out on location by standards.
- Communicated with the customer and subcontractors and carried out the site work according to the plan.
- Monitored construction progress, addressed any issues or delays, and reported updates to senior management.
- Guaranteed quality of work and made sure the assignment was finished within the allotted time.
- Implemented and enforced health and safety guidelines to ensure a safe working environment.
- Observed inventory of construction materials and coordinated timely order and delivery.
- Addressed on-site issues and provided solutions to prevent delays and maintain project quality.
- Served with budget management by analyzing expenditures and finding ways to save costs without sacrificing quality.
- Established progress reports and informed the project team with regular updates on all project-related matters.
- Handled the construction of buildings with cold formed light gauge steel structure frames (Lgsf)
