SUMMARY

Professional Oil & Gas Industry with 22+ years of experience in Engineering & Construction, Operation, Maintenance, Project Management. Both Offshore & Onshore Operation. I'm expertise in project Timeframe, Budgeting, CMMS, Project execution, stuffing / Manpower Management. Skilled in KPI tracking, process improvement, and executing growth strategies to ensure sustainable success in energy sectors.

AREAS OF EXPERTISE

- Instrumentation • Electrical • Operation • Maintenance • Engineering and Construction • Safety Shutdown System
- Process Control System • Personal Safety Management • Process Safety Management • HAZOP • HAZID • LOPA
- Team Collaboration • Manpower Management • Internal Audit • Continuous Improvement (Lean Sigma)
- Contract Services Management • Hazardous Waste Management • Project Management

PROFESSIONAL EXPERIENCE

Project Representative | **Elnusa Tbk**

2025-Now

- Coordination for Project schedule, HSSE, company standards and procedures.
- Coordination for Project development: engineering studies, technical bid reviews, preliminary engineering, detail designs.
- Coordination with contractor of Pre-FEED & FEED, SOW & schedule requirements.
- Coordination for Project review of the design, construction, pre-commissioning, commissioning and startup of facilities.
- Review of contract documents, PEP, change management, construction sequencing, standards specifications.

Project Coordinator | **Pertamina PDC**

2022-2025

- Coordination for Project schedule, cost, HSE, company standards and procedures.
- Coordination for Project review of the design, construction, pre-commissioning, commissioning and startup of facilities.
- Coordination for Project development: engineering studies, technical bid reviews, preliminary engineering, detail designs.
- Managing GES design contractor: development of Pre-FEED & FEED, SOW & schedule requirements.
- Managing Projects Phases, Engineering Phases, Bidding procedures, Procurement Processes, Construction Requirements.
- Managing of contract documents, PEP, change management, construction sequencing, standards specifications.
- Managing I&C deliverables and others such as (BDs, SLDs, P&IDs, ILDs, ISDs, ISS, C&E diagrams, HAZID, HAZOP, SIL, simulations, control narrative, energy optimization, startup plans, etc).

Project Manager | **SEISO Indonesia**

2021-2022

- Managing for Project schedule, cost, HSE, company standards and procedures.
- Managing for Project review of the design, construction, pre-commissioning, commissioning and startup of facilities.
- Managing for Project development: engineering studies, technical bid reviews, preliminary engineering, detail designs.
- Managing GES design contractor: development of Pre-FEED & FEED, SOW & schedule requirements.
- Managing Projects Phases, Engineering Phases, Bidding procedures, Procurement Processes, Construction Requirements.

- Managing of contract documents, PEP, change management, construction sequencing, standards specifications.
- Managing I&C deliverables and others such as (BDs, SLDs, P&IDs, ILDs, ISDs, ISS, C&E diagrams, HAZID, HAZOP, SIL, simulations, control narrative, energy optimization, startup plans, etc).
- Managing 6 persons subordinate & 30 persons contractor.

Production Superintendent Assistant | Pertamina Hulu Indonesia

2018-2020

- Coordination for yearly Lifting target Oil & Gas from RKAP, WP&B and APBN.
- Coordination for daily operation & HSSE performance.
- Manage 12 persons subordinate & 12 persons contractor.

Construction Representative (Offshore & Onshore) | Chevron Indonesia

2013-2018

- Schedule and monitor engineering tasks
- Identify project phases and elements & HES Monitoring.
- Construction management for (Fabrication & Installation, Commissioning, Diving, Civil work, vessel/Barge movement) supporting Operation & drilling department.
- Process Safety (Audit & Inspection), Safety Risk Management, Facilities Integrity Management, Process Engineering, Operation & Maintenance.
- Analyze the management approach of a company and redo it if necessary.
- Establish or design testing methods to monitor the overall quality of the project
- Create drawings used in design and construction
- Regulate policies and procedures to maintain a safe and clean.

Onshore Maintenance Group Leader | Chevron Indonesia

2006-2013

- Supervise and manage all areas related to Camp facilities.
- Supervise and manage all areas related to Oil Train, Gas Train, CO2 Removal Plant, Dehydration Plant.
- Ensure that the work environment is always neat and safe to avoid unwanted things from happening.
- As company representative for several capital projects & HES Performance.
- Ensure all safety devices comply with applicable standard & regulation.
- Manage 6 persons subordinate & 24 persons contractor (plus 50 worker under LBD's Contract).

Electrical & Instrument Staff (Onshore & Offshore) | Unocal Indonesia

2003-2006

- Maintained reliability & availability for Power House equipment's.
- Maintained reliability & availability for Compressor House equipment's.
- Maintained reliability & availability for Pump House equipment's.
- Maintained reliability & availability for Metering House equipment's.
- Maintained reliability & availability for Oil train & Gas train.
- Maintained reliability & availability for Waste water & Sludge treatment.

EDUCATION

Masters of Project Management | Sepuluh Nopember Institute of Technology
Bachelor of Electrical Engineering | Sepuluh Nopember Institute of Technology

CERTIFICATIONS

- Filed Development Trainee (FDT) | 2003 • Electrical and Instrument | 2006 • PM201 - Managing Projects with CPDEP | 2008 • Procurement Certification (PTK 007) | 2010 • CSOC Certification – CBT | 2010 • Project Management Professional (PMP) | 2023 • Lean Sigma (Black Belt) | 2023 • CIP Pertamina Hulu Indonesia | 2019 | 2024
