MOHAMED NASR

Job Title : **Senior Land Survey Engineer**

About Me

Senior Land Surveyor with over 10 years of experience in using modern surveying tools and software such as Total Station, GPS, AutoCAD, Civil 3D, and GIS. Specialized in accurately collecting and setting out points for engineering and construction projects. Highly skilled in reading technical drawings, coordinating with work teams, and ensuring fieldwork aligns with design plans. Committed to quality and safety standards, with participation in major projects both inside and outside Egypt.

WORK EXPERIENCE

ZULUF Water Treatment plant project
Senior Land Survey Engineer 2025 – present
Key Responsibilities at Aramco:

Involved in design and planning tasks for various engineering projects.

Performed high-precision surveying and point setting using Total Station and GPS.

Operated equipment in compliance with quality and safety standards.

Supervised quantity surveying and civil work calculations.

Extracted and managed data using AutoCAD for project documentation and updates.
