I am a diligent and enthusiastic college student pursuing an MS in Computer Science. I am passionate about the role of Data Scientist or data Analyst. I seek an organization that prioritizes career growth and allows me to achieve goals through perseverance and dedication. I am confident that my strong ethic and passion for the field will contribute to your organization's success.

Core Competencies

- Data Analysis
- Problem Solving
- SQL
- Python
- Data Visualization
- Machine Learning
- Storytelling of Insights

Education

MSc Computer Science (Specialization: Data Science) Forman Christian College (A Chartered University), Lahore	*2021 – Present*
BS Software Engineering Lahore Leads University, Lahore	*2016 – 2020*
ICS Govt. Islamia College, Railway Road, Lahore	*2014 – 2016*

Projects & Research Publications

- **Depression Detection in a Video Using Machine Learning Algorithms (Thesis):** Data Cleaning, Handling, and Visualization. To improve accuracy, we implemented a hybrid model consisting of different ML Classifiers.
- **Hidden Camera Detector Android Application:** Requirement Analysis, UML, Diagrams, Test Cases, SRS Document
- **Software Quality Assurance, Software Testing, & Quality Predictions Using Supervised and Unsupervised Algorithms: A Survey (Under Review in VFAST)**

Skills

- Python
- Jira (Beginner)
- C/C++
- User Research
- SQL (Beginner)
- Power BI (Beginner)
- Tableau (Beginner)
- Project Planning
- MS Excel
- Research Writing
